

Design Highlights for Far East Escape

Everyone needs a place to escape to, a garden of peace, serenity, and mystery. Plantings are gentle, furnishings comfortable, and simple touches infuse your garden spaces with a Far East calm.

YOUR REFLECTING POND WILL SOOTHE THE SENSES – on a still day, the reflection of the arch bridge, large boulders, and big Spruce will be picture perfect. Exotic water garden flowers add scent and beauty. Sit on the stone bench and reflect for awhile.

THE TRANQUILITY GARDEN – with its mountain range made of boulders will give the impression of being on a journey to the Himalayas. You can forget the cares of the world by raking the ground into various patterns. Enclosed by bamboo with a soft, soothing sound when the wind blows.

THE PAGODA OFFERS THE BEST GARDEN VIEW – located between the tranquility garden and the reflecting pond, this is the perfect place to spend hours alone or with friends. Here, and along your home, is where you want to showcase your Bonsai collection. The gurgling fountain will drown out the noise of the world.

JAPANESE MAPLES ADD AN EXOTIC BEAUTY – investigate, and invest in, many varieties of Japanese Maples. They will add the finishing touch that ties your whole garden together. They have wonderful spring, summer, and fall color, and provide interesting structure in winter.

YOUR CIRCULAR DINING DECK HAS A PANORAMIC VIEW OF THE GARDEN – great for enjoying breakfast or a late dinner. The Yoshina Cherry trees will drop pure white blossoms on the shrubs and your deck; it will look like a dusting of snow – just beautiful!

LIFE WILL SLOW DOWN IN YOUR MEDITATION GARDEN – Eastern architectural arches announce you've arrived at something special. Slowly walk the spiral, appreciating the beauty of your Tulip, Daffodil, and Daylily collection. Sit for awhile on your very private, secluded, comfortable bench. You'll feel like you've escaped to the Far East.
