

Design Highlights for Floral Explosion

Strolling through this garden is a joy all season long. Jam packed with flowers, Floral Explosion is a never ending fountain of color with fiery reds, sunny yellows, hot pinks, and purple blues. Hummingbirds and butterflies will entertain you as you fill vase after vase with fragrant, beautiful flowers. You will savor every moment in your Floral Explosion.

A FRAGRANT ROSE ALEE WELCOMES YOU – visitors will know they are entering something special. As they emerge from the alee into your garden, their first word will be **WOW!**

DRIFTS OF FLOWERS CREATE BIG IMPACT – loads of annuals, perennials, and flowering shrubs make your garden seem larger than it is and give a lush, full appearance.

YOUR CENTERPIECE FOUNTAIN IS AN EYE CATCHER – people and birds are attracted to the sparkle and soothing gurgle of the water.

THE PATIO IN THE FAR CORNER IS A DESTINATION TO EXPLORE – partly hidden by large shrubs, you naturally want to go see what is on the other end of the bridge. Entertain friends and family here, surrounded by colorful flowers.

A KOI POND ADDS ANOTHER BEAUTIFUL GARDEN ROOM – you will sit here for hours watching the koi and forgetting the world. What a great stress reliever!

GO FOR A WALK IN THE WOODS – take a stroll around your pond, brush up against the plants, view your pond from different angles, take your time. Start a Hosta collection here.

GROW YOUR OWN HERBS – eat more organic, add a small compost pile, go green!

GREAT FINISHING TOUCHES – like the Clematis collection on the back fence and the wishing well surrounded by flowers complete this beautiful Floral Explosion.
