

## Design Highlights for Tranquility Park

*Tranquility Park is a quiet haven in which to think and meditate, or to simply sit and enjoy the peace of nature. Your garden becomes a point of stillness in a world that never slows down. Abundant flowers, wonderful fragrances, the soothing sound of water, and winged visitors surround you. Tranquility Park is a peaceful, relaxing space that leaves the world behind.*

**STUNNING ENTRY STARTS THE GARDEN OFF RIGHT** – walk through the entry portal into a world of beauty and peace. You and your visitors will know you have arrived at a very special place.

**A MEANDERING STREAM DRAWS THE EYE THROUGH THE GARDEN** – starting at the entry fountain, crossing under a wooden bridge, winding its way through the landscaping, and flowing into the pond. The sparkle and reflections on the moving water will be gorgeous.

**HAVE MORNING COFFEE ON YOUR PATIO** – listen to the soothing sound of the fountain, watch leaves as they float downstream. If it's cool, toss a log in the fire pit. The sweet smell of the Stargazer Lilies will fill the air. Be careful, though. You don't want to be late for work.

**OPEN DECK HAS A MAGNIFICENT VIEW** – perfect for entertaining, your guests arrive by crossing the stream on large stepping stones. Stroll down to the pond. The path is wide enough to add extra seating for parties.

**YOUR GAZEBO BECKONS IN THE DISTANCE** – placed at the end of a long brick path, draped in Clematis vines, smothered in roses, and nestled in evergreens. This will become your favorite garden room.

**THE POND IS YOUR PRIVATE OASIS** – sit on a comfy swing built for two. Enjoy the birds and koi playing in the pond. Relax and unwind in your Tranquility Park.
