

Design Highlights for Tropical Paradise

Big, bold foliage, dense plantings, and jazzy color combinations will create the illusion of a Tropical Paradise in your own backyard. Large, colorful containers, sparking water, beach chairs, and a swaying hammock bring far away flair to your garden. Take a trip to the islands in your Tropical Paradise.

COOL POOL WITH CASCADING WATERFALLS – you will veg out all summer by your pool. Oversized pool decks have loads of room for tables, chairs, and partygoers.

YOUR OWN BEACH, TOO! – fun for the kids – have sand castle building contests – spend quality family time. Lay down a towel and work on your tan.

HOST A DINNER PARTY – relax as the sun goes down, the landscape lights come on, the fountain sparkles, and everyone gets comfortable. Take a swim after dinner.

SPEND QUALITY TIME ALONE – snooze, read, or just take a moment away from the world in your hammock. The hummingbirds will put on quite a show in your vibrant, overfilled flower beds.

GROW YOUR OWN – the greenhouse will be handy for over-wintering plants, starting annuals from seed, or showcasing a plant collection.

TAKE A WALK AROUND YOUR GARDEN – you and your sweetie can stroll arm-in-arm and talk about your day or make future plans. Take time to smell the flowers.

IN THE HOTTEST PART OF SUMMER, THIS GARDEN REALLY SHINES – tropical looking shrubs, vines, and perennials will flower all summer long, attracting colorful butterflies from all over. This truly will be your own Tropical Paradise.
